As per repots the US invading forces accompanied by the puppet police forces entered Jama Khan village of this town and positioned themselves in the laps of Allah-o-Akbar Mountain, trying to plot a ground operation as they were targeted by Mujahideen IED bombings and missiles that forced the enemy forces to retreat with deadliest losses caused to them. Two of the enemy forces' tanks got torn part by Mujahideen strikes and bombing, bringing the number of the US tanks destroyed to 19 since the fighting unfolded three days ago. The wreckage of the struck tanks is reported to still exist in the battle ground. In a statement, the puppet officials claimed they had captured the center of the of Disho district of Helmand which has been in the control of the Mujahideen of the Islamic Emirate for more than 7 years, and some of the media outlets reported accordingly. Mujahideen of the Islamic Emirate render their claims false and baseless. It is still under the total control of Mujahideen which is not a district but a small border town as Boldak town and is located on the river bank. Regrettably, the officials of the stooge regime, little knowing about the country and its provinces and districts, called this town a district and claimed to have captured it. Interview with Islamic Emirate's Military Commander for Kandahar Province, 2010

3 October 2010

As you all might know, for the past 2 weeks the US invaders have launched an operation (Dragon Strike) in Kandahar province so Alemarah website interviewed Kandahar provinces military commander, Mullah Muhammad Isa Akhond to update us on the situation.

Alemarah: Respectable Mullah Muhammad Isa Akhond, Asalamalaikum. What is the current situation in Zhiri, Dand, Maiwand and surrounding areas according to the information you have received?

Mullah Muhammad Isa Akhond: Walaikumsalam wa Rahmatullah e wa Barakatuh. All praise is due to Allah and may his peace and blessings be on the beloved Prophet Muhammad (SAW) and for what follows:

All praise is due to Allah, the enemy have not gained any significant ground against Mujahideen in Zhiri, Dand and Maiwand districts so far in the 2 week of constant bombings and land assaults on Mujahideen areas. The enemy's intent was to take control of Sang-e-Sar, Pashmool and Sanzari areas of Zhiri district from Mujahideen and then move on to the southern areas all the way up to the border of Panjwae district. But Alhamdulillah, due to the zeal and bravery of Mujahideen and their stiff resistance, they have not been able to achieve any of their goals so far. Their armored tanks and vehicles are still parked on the spot of their arrival on Kandahar-Herat main highway just outside Sang-e-Sar area. For the past 2 days, US forces and their puppets have started a massive push into Pashmool area, which is only about 2-2.5 km², using land and air power in a bid to secure the area. They have only been successful in taking control of Lalajan Paich region but have been coming under deadly attacks even today especially near Zirh Maktab area, in which powerful blasts detonated on them, causing them fatal losses, for which medical helicopters landed 4 times to airlift the dead and wounded. In these 2 days, the enemy has been violating all norms and have been bombing and demolishing houses, trees, fields and farms of locals in order to clear the way for themselves. Close to Pashmool is Sanzari area, in which the enemy have forcefully taken over 2 civilian houses and made them into their check posts while the rest of their military convoy has retreated back to their bases but even those check posts were targeted by Mujahideen mortars yesterday. Dand district is in a similar situation. The enemy have their forces stationed in Nakhoni, Zalkhan and Khanjakak areas but cannot move forward any further due to the constant fear of ambushes and IED's. The invaders also face fatal losses in this district from IED attacks on a daily basis. As for Maiwand, the enemy forces which came out for the operation have returned back to their bases. They have built a new base in Kala Shamir area and it looks of things they have ended their campaign there.

Alemarah: What do you think the aim of this operation is and how much of their goals have the enemy achieved?

Mullah Muhammad Isa Akhond: Our thinking is that the enemy is trying to secure Kandahar city, Kandahar-Herat main highway and all the roads leading to enemy bases in Panjwae, whose security is deteriorating and is in danger of collapse. Therefore the enemy has launched the operation in a bid to weaken Mujahideen's military power in Dand, Panjwae, Zhiri, Maiwand and Arghandab districts, which are in a close proximity to the city and are either fully under Mujahideen control or Mujahideen have a heavy presence in them. In order to achieve their goals, the enemy planned to dig ditches and cordon off the area using barbed wire around Maiwand and Zhiri districts and also between Panjwae's Spirwan area and Dand district in order to restrict Mujahideen movement. But all praise is due to Allah, and with his help, the enemy has not gained any ground of much significance. Mujahideen have tactically retreated from the areas which they have entered but are causing the enemy great suffering and losses in well planned IED attacks and ambushes.

Alemarah: How much have the Mujahideen been effected by the operation?

Mullah Muhammad Isa Akhond: The enemy's failure to gain much ground or momentum is the sign of Mujahideen's heavy presence and activeness in the areas. The only difference now is that Mujahideen don't move around in huge numbers and they don't have clear frontlines but have opted to fight using guerilla tactics. Mujahideen have returned back to their normal assaults in the area around Sanzari and Maiwand because the fighting has become minimal. In fact, just yesterday Mujahideen attacked a NATO logistical supply convoy, in which a large number of vehicles were burnt in the area between Dand and Maiwand districts. This is the area which the enemy claims to have taken over in the past few days as a result of their operation.

Alemarah: You say that the enemy has launched this operation to secure Kandahar city center. Has this effected your operations there?

Mullah Muhammad Isa Akhond: Alhamdulillah our operations are still going on at the same pace as before. In the past couple of days there have been many blasts and missile strikes in and around Kandahar city center, which even the media picked up so basically they themselves are a witness to our claims.

Alemarah: To end, could you please share a story about any astounding Mujahideen incident which might affect the hearts of our viewer's.

Mullah Muhammad Isa Akhond: There are many amazing and astounding incidents but the one worth mentioning is in which the help of Allah was seen by Mujahideen. A Kandahar puppet government official for Haj and Awqaf was killed in a blast a while back. His sons name was Mukhlis, who was an active member of the puppet Intelligence agency. A few days ago, Nazik, the so called governor of Dand district captured 2 Mujahideen and gave them to Mukhlis, who wanted revenge for the death of his father. So Mukhlis along with 3 of his body guards put the Mujahideen in a vehicle and tried to take them to a desert where he would brutally Martyr them. On the way the vehicle stopped working so Mukhlis along with his gunmen got off the vehicle and tried to fix the problem. At this moment one of the Mujahideen released his hands from handcuffs, snatched the weapon of one of the bodyguards and shot dead all 4 puppets on the spot. In this way Allah relieved both of the Mujahideen from their hardship.

Alemarah: Thank you very much

Mullah Muhammad Isa Akhond: And you too

The untold reality of Kandahar Operation (Part 1), 2010

27 October 2010

As all the readers of Alemarah website might know that a major enemy operation is taking place in Kandahar province which has been ongoing since the last one and a half month. Lately the enemy, through its biased media, claims to have ridded the surrounding districts of Mujahideen presence and also claims to have gained substantial ground against Mujahideen in the areas. Alemarah website has recently had the opportunity to interview the district commander of Dand district, Mullah Abdullah Mubarak and ask him questions regarding the untold reality of the situation.

Alemarah: Firstly could you tell us about the ongoing enemy operations in Dand district and why did they come about?

Mullah Abdullah Mubarak: Dand district is located at a very close proximity to Kandahar city and it has a large number of Mujahideen operating inside so the enemy became frightened that it might, just like Dand, lose the entire city to Mujahideen and hence started their preparatory operation firstly in this district in the month of Ramadan. The enemy soldiers entered Mahlajat, Chalghor, Nakhoni, Khanjakak, Zila Khan and Salawat area by helicopters and in huge numbers. Mujahideen, due to a tactical maneuver, did not want to engage them in normal battle but decided to use guerilla warfare in order to cause them maximum damage. We decided to mine all the main roads and when the enemy could not make any inroads, they decided to bulldoze local's farms and fields so to gain at least some ground but that attempt also proved futile as they suffered massive casualties due to Mujahideen also mining those ways, ambushes and missile attacks. To put it bluntly, a day hasn't passed so far that at least 4 to 10 blasts do not detonate on their patrols. Due to their immense suffering, the enemy decided to bomb the area randomly using cruise and other missiles from which civilians were killed, their houses and fields wrecked and many were forced to flee the district. After this criminal act, the enemy turned the local's houses into their military barracks. So far the enemy has abandoned most of those barracks and in the areas which they do exist, they have neither come out nor can they due to heavily mined areas and Mujahideen waiting in ambushes. But even these bases are located in such places that providing of logistics will be a big problem in the future.

Alemarah: It is said that the civilians are the only ones who have been affected by this operation. Could you elaborate on this?

Mullah Abdullah Mubarak: Yes, to sum up the genocidal behavior of the enemy in one sentence, it would be that this kind of crime against civilians has not been done in the entire history. I swear by Allah that so far only 5 of our Mujahideen have been Martyred, 3 have been injured and none have been captured but the prison of Kandahar has been filled by civilians. I would like to summarize the crimes against civilians of Dand by giving a few examples:

1. When the enemy came to Mahlajat in the morning, they blocked all the main roads and blindfolded all those who came their way. Nearly all the locals of Dand have shops in the city where they sell fruits and vegetables so throughout the day the barbarians handcuffed and imprisoned around 300 civilians by the name of Taliban.
2. A few days earlier, the American invaders besieged Ghra and Mahi Village located in Zila Khan area of Dand district. Most of the people had emigrated from these villages except 97 people which were village elders and children who had come to collect some of their belongings but even those were not spared as they were stripped naked, blindfolded and then imprisoned. They were released 12 days after enduring many hardships.
3. All their new barracks are built inside civilian houses and on their lands. They have bulldozed local's lands, fields, farms and houses as they try to make inroads against Mujahideen. Some 500 homes and shops have been bulldozed due to this process in Nakhoni area alone. Similar crime has been carried out in Khanjakak, Chalghor and all the other areas. They recently blew up local's raisin houses in Chalghor. Nearly all incidents involve the demolition of homes with the owners belonging inside them.

Alemarah: The enemy says that they have killed and captured many Mujahideen, their leaders and many of their bases have been destroyed. How much of this is true?

Mullah Abdullah Mubarak: The American invaders decided that they would make check posts in very close proximity to the next one by destroying the homes and fields of civilians and that would rid Mujahideen from the area but did not realize that Mujahideen were going to use guerilla tactics. Now the enemy has barracks in various areas but don't have control 50 meters beyond their posts and thus cannot come out. As for our casualties, only 5 of our Mujahideen have been Martyred and 3 wounded and none of our leaders have been either killed or captured.

Alemarah: How has this operation affected the Mujahideen and what do you say about the claims of Ahmad Wali Karzai that Mujahideen bases have been destroyed throughout Dand and Kandahar?

Mullah Abdullah Mubarak: I don't know how Ahmad Wali can make such claims when in fact he cannot even peacefully sleep in his own house due to constant Mujahideen attacks on it. If he was really honest in his claims then he should just once, walk freely in Kandahar city let alone Dand and Panjwaee districts. All these claims are false. As for the number of our groups and bases, they have not decreased compared to spring and summer time. Due to the enemy operation we decreased the number of Mujahideen but now that the enemy has become tired and lost morale, those Mujahideen are coming back to carry out operations because their enemy numbers have become vast and much easier to target.

I want to congratulate the Afghan nation in particular for this victory of Mujahideen because we have not suffered any serious damage and the enemy has lost because they cannot sustain this large force for long especially that their newly built bases and barracks are becoming harder and harder to supply with logistics.

The untold reality of Kandahar Operation (Part 2), 2010

30 October 2010

Zhiri district is located to the south of Kandahar-Herat main highway and has been a solid base and under the control of Islamic Emirate Mujahideen for the past 9 years. Previously the invaders only had outposts on the main highway but due to the recent operations have expanded those to Pashmool and Sanzari areas. For recent information on the situation in the district, Alemarah interviewed the Military commander for this district, Mullah Ateequllah Agha.

Alemarah: Can you please give us information about the recent enemy operation and on the situation in the district?

Mullah Ateequllah Agha: As you might already know that Zhiri is known as the most hostile district for the enemy for the past 9 years and especially Sang-e-Sar and Pashmool areas where the enemy has not been able to take over and has proved very deadly for its forces. The southern parts of the districts have been completely under our control which the enemy has never even attempted to enter. The enemy was real frustrated due to the constant attacks by Mujahideen on the main highway which immensely disrupted the movement of their military and logistical convoys and therefore started the huge push towards Sang-e-Sar, Pashmool and Sanzari areas by bringing hundreds of tanks, foot soldiers bombing the areas by Jets, cruise missiles etc. Due to their cruel and barbaric blind bombings, the residents of Pashmool and Sanzari have fled during a time when they were supposed to collect their harvests. Mujahideen countered their strategy by adopting guerilla warfare from which the enemy has suffered more damage than at any other time. You might have heard through the media of the tanks being blown up every day in Pashmool and Sanzari areas and the retaliatory ambushes and attacks against their foot patrols. Similarly the invaders arrested civilians after forcing their way into their homes at night. So due to our resistance, the enemy has not gained any ground in some parts and in others where they have gained some ground, it has come after much suffering and deadly losses. Overall the enemy's force is winded up, they have only added 2 outposts each in Pashmool and Sanzari areas and the Mujahideen numbers which were decreased for the initial enemy push have returned back to their normal levels.

Alemarah: How much new ground has the enemy gained from this operation?

Mullah Ateequllah Agha: The enemy has not gained an inch of territory in Sang-e-Sar, which is only 100 meters away from the main highway. They have gained some ground in Sanzari but after intense bombing and making headway by demolishing people's homes, fields and other property. They also made ground towards the south of Pashmool up to Rod area but in all areas the advance has been short term because they have all returned to the 4 new outposts made in civilians homes and all their military equipment has also been vacated from the rest of the regions.

Alemarah: It is said that the enemy has severely bombed the areas bringing huge destruction to the civilians?

Mullah Ateequllah Agha: Like in the rest of Kandahar province, Zhiri has also experienced enormous destruction to civilian property from the barbaric enemy. Although the exact facts and figures have not been compiled but I will summarize some of the damage done that we have witnessed in a few points.

1. Nearly 80% of civilians have become homeless due to the ruthless bombings from cruise missiles, canon rounds and other types of bombs dropped in all of Zhiri from Kandahar airfield. The civilians have also suffered deaths and nearly all of the people's homes and other property have been completely destroyed.

2. Hundreds of homes have been utterly demolished in the area between the main highway and Wyala of Sang-e-Sar as the enemy claims that their convoys and bases are always attacked from this area.

3. The barbaric enemy has filled streams with dirt, demolished homes and blown apart all the greenery in Pashmool, Sanzari, Syachowi and also the other areas to make new roads due to the other roads being completely mined.

4. In all these areas, the enemy has destroyed homes with all its belongings inside. The homes were either already abandoned and if they weren't, they would force its owners to leave by bulldozing the property's walls.

5. The enemy has dropped types of bombs which have created massive craters and which have also burnt people's fields and plants so to make an alternative way to enter due to fear of mines being placed on the main roads.

6. In this process, the enemy has Martyred, wounded and imprisoned countless civilians but we don't have their exact figures.

Alemarah: The enemy claims to have caused Mujahideen many casualties, killed their leaders and also broken their hold on the district?

Mullah Ateequllah Agha: So far 10 Mujahideen have been Martyred which includes a group's leader and he was not Martyred in Zhiri but rather in Reag district by a night raid. In contrast, the enemy has suffered immense casualties as you might also have heard from the media.

Alemarah: How do you see the result of the current situation and the operations result?

Mullah Ateequllah Agha: The current situation does not differ a lot from the situation before the operation began. Our groups in Pashmool and Sanzari have become active like before and like before, the enemy is always attacked as they come out of their newly built outposts in these areas and also the ones built on the main highway. The only result coming out of the operation is the death and destruction caused to the civilians which deplorably, the foreign and domestic media have been silent about.

The untold reality of Kandahar Operation (Part 3), 2010

4 November 2010

Arghandab district is located to the north of Kandahar city which has also taken center stage in the enemy operation and the enemy has also made bold claims of routing Mujahideen from the area in their recent propaganda reports. These reports have surfaced at a time when they enemy has neither made any considerable progress and neither has the situation of the district seen any change. To shed light on what has taken place in the district and its recent situation, Alemarah interviewed one of the district leaders, Mullah Muhammad Yasir.

Alemarah: Could you please shed light on Arghandab district's current situation?

Mullah Muhammad Yasir: As you might already know that Arghandab is situated very close to Kandahar city and in the past few years Mujahideen extended their presence and took control of more areas in the district from which the enemy feared a great danger and therefore it also included this specific district in their push for the control of Kandahar but their assaults have been few, sporadic and very ineffective. They started their campaign from North-eastern area, where they had already established a huge base, into Khasro and Tarako Kala and similarly in Char Kot and Char Gholbi through Baba Sahib area but their operation did not yield any result in weakening Mujahideen or taking control of any of their strategically important areas but rather the only thing they did achieved was that of harming and causing damage to the lives and properties of civilians however they did build 2 new bases in close proximity to their old ones. The operation in Arghandab was not like that of the other districts as it was carried out for only a couple of days and the situation right now is no different than it was before the operation took place.

Alemarah: What do you say about the claims of the enemy of completely taking control of Arghandab?

Mullah Muhammad Yasir: Like all their other baseless claims this is also false. As a matter of fact, we invite journalists to come and check out the district for themselves, so they can see who controls majority of the district. The enemy only controls Baba Sahib, Nagahan and Manara which were also previously under their control but Mujahideen have been carrying out guerilla attacks in it on a regular bases. As for Char Gholbi, Tabinan, Khasro, Shahtori, Shinan and the rest of areas, they are fully under our control. The enemy only has outposts on the road which comes from Uruzgan then leads to Herat and similarly the road which leads towards the north from Baba Sahib area. All the rural areas are under our control like how they were under our control before and we have a very powerful presence in those areas.

Alemarah: Can you give us information about what took place in the operation?

Mullah Muhammad Yasir: The enemy started a campaign of heavy bombardment using cruise missiles and other means at night in Khasro's Tarko Kala village and other places for 3 days. The bombing campaign was continued because their tanks and foot soldiers were hit by IED explosions in every meter of entering from the North and South of the district. The civilians lost most of their property due to the enemy's bombings and cruise missiles. More than 20 houses were destroyed in Tarko Kala village alone. Arghandab is also covered with pomegranate trees and since this was the time of harvest, the civilians also faced a huge economic burden as their fields and trees were completely destroyed. The reason why civilians were not killed is because they had either already fled their homes or were forced by the repeated enemy warnings to vacate the district. The enemy arrested more than 70 civilians by the name of Mujahideen when in fact they would only come from the city and surrounding areas to collect some of the pomegranates so they can feed their families by selling these fruits. Similarly more civilians were also arrested in the other areas but they were later released. Only 2 of our Mujahideen brothers have been Martyred in these operations but the enemy has suffered major losses due to the deadly IED explosions.

Alemarah: The enemy plans to make militias in the district. Do you see that happening?

Mullah Muhammad Yasir: These are just rumors spread by their propaganda machines. Nearly all the people of Arghandab are Mujahideen and are even helping us right now. The enemy cannot even leave their bases and they have been trying to implement such strategies in the last few years but without any effective outcome. The people of Arghandab hate the enemy and have therefore embraced us with open arms. There is no possibility that the enemy can take control of Arghandab by implementing such useless strategies.

An indepth interview with Haji Ahmad Saeed, head of operations in Kandahar city, 2010

11 November 2010

The recent operations in the province of Kandahar, by the enemy I.S.A.F forces are viewed by the western-orientated media, as the last military push against the Mujahideen. The majority of them are of the opinion that should these operations fail as well; the Americans would have no other option but to leave Afghanistan. The enemy admits, that the essential objective of this operation is to prevent the collapse of Kandahar city (which is Afghanistan's second largest city) to the Mujahideen forces. To achieve this, the enemy, besides conducting operations in the districts surrounding Kandahar city, has now also started military operations in the city centre as well. To find out exactly what impact these operations have had on the Mujahideen forces, we talked to Haji Ahmad Saeed, who is in charge of Mujahideen military operations in Kandahar city. This detailed interview is presented below.

Alemarah: First of all, please give us some general information of the recent operations of the invading forces: what are some of the activities the invaders have undertaken?

Haji Ahmad Saeed: All Praise is to Allah, Kandahar city, which has in the past many years, bore witness to some of the Mujahideen's greatest operations and bravery, has seen sustained attacks by Mujahideen warriors. These attacks have caused our internal and external enemies' to panic, to the point of admitting that could very well fall to the banner of Islamic Emirate's soldiers. Since then, the enemy has completely revised its strategy, focussing almost exclusively on Kandahar city and its surrounding regions. In line with this strategy, the enemy has increased its presence in the region considerably. This increase has been witnessed in the city centre as well, where the enemy has increased its infantry and motorised battalions. They have also carried out large scale raids against civilian population by surrounding entire districts, then carrying out house to house searches for weapons and Mujahideen. They have also started operations in regions that are under Mujahideen control. They have infested the city centre with numerous foreign and army outposts, besides the normal police stations. They have set up more and more check points on the roads and increased their intelligence gathering spy-rings. All this has given Kandahar city the appearance of a city under siege. The enemy has caused all this commotion and carried out these measures to stop our activities in the region but Alhamdulillah and again Alhamdulillah, as our recent operations in the heart of the city have shown, the enemy has utterly failed in this objective. Even the westerners' own governmental and non-governmental agencies confirm our success by stating that Mujahideen activities in Kandahar, instead of decreasing, have increased by over twenty-four percent.

Alemarah: The enemy invaders claim that they have set up a belt our Kandahar city to choke the movements of Mujahideen into and out of the city. What information do you have regarding this?

Haji Ahmad Saeed: It is true that the enemy has set up various check points on the roads leading into the city and on the main highways and constructed some ten large army stations. One of these army posts is on the Panjwaee road near Kobai; another is one the way from Khanjakak towards Soop; another is on the Heart road near Seelo; another is on the Arghandab road near Mir Ahmad Khan's Kalachi; one near Kotal, one on Shah Wali Kote road, on Kabul road near Ainoominy; on the Boldak road from Shurandam towards the city. They have also set up two new army posts on the roads leading from Mahlajat. All these outposts have some of the most high-tech detection and identification tools available to the west. Yet despite this they have never captured any of our Mujahideen, nor detected any explosive-laden vehicle. Everyday our explosive filled vehicles pass over these army checkpoints and army posts without being detected or captured. This is all by the Grace of Allah who has favoured us in all opportunities. The enemy's so called 'belt' has achieved no other purpose besides harassing the local populace. As you can see, our attacks on the city have increased rather than decrease. Therefore this belt is no impediment to the Mujahideen operations and its purpose has been inflated far beyond its capabilities.

Alemarah: How are Mujahideen's operations inside Kandahar city?

Haji Ahmad Saeed: In the city, as of old, as soon as darkness spreads the stooge governments rule comes to an end, our battalions start their patrols and our operations begin. At night, we set up our ambushes on all the major roads, sealing the enemy inside their outposts. Due to our ambushes, now the enemy has accepted that they cannot provide support to their other outposts if and when they get attacked. Similarly, the Mujahideen always watch their activities during day time. Everyday enemy spies and soldiers are shot dead by our snipers. Several days ago, on the Kandahar bypass road, Mujahideen conducted searches of cargo trucks finding and subsequently burning those trucks carrying supplies to enemy soldiers. All this proves that the Mujahideen have the capabilities and willingness, to conduct operations in the city according to their own initiative, while the enemy has lost all morale and determination to fight.

Alemarah: It is said that since this new operation was launched, many innocent residents have gone missing, some of whom have subsequently been found and have reported to have been kidnapped by American and puppet government officers. What information do you have regarding this?

Haji Ahmad Saeed: It is true that the enemy has arrested many innocent people, the majority of whom are still suffering in prisons. These people have been arrested by government intelligence services as well as by various local militias. Many of them have been arrested due to personal or tribal rivalries. These incidents require a thorough investigation because many of these innocent arrestee's have often been tortured to death without any legal process. These are all innocent Afghan civilians whose death should be investigated by all Afghan and global societies.

Alemarah: Enemy has been announcing recently that they have captured a large cache of weapons, explosives and mines from the Mujahideen. What is your information regarding this?

Haji Ahmad Saeed: This is yet another of the enemy's baseless claims. We have not yet faced a situation where the Mujahideen's weapons or mines have been captured due to the enemy's intelligence gathering. However, it has sometimes happened that some of our mines have failed to explode due to some technical or electronic failure. These have subsequently fallen into enemy hands further inflating their egos.

Alemarah: The issue of civilian casualties is hotly debated in Kandahar. The enemy propaganda claims that civilians are often killed in Mujahideen operations. What do you have to say about this?

Haji Ahmad Saeed: I, as the head of Kandahar operations, feel very sensitive to this issue, first in front of Allah and then in front of our Afghan people. If we did not fear for causing harm to our own people then our operations in Kandahar would be ten times more than they are today. We have always tried our best to completely end any civilians casualties on our part. We often have had to cancel our operations when we fear the possibility of civilian casualties. On the other hand, the enemy always seeks to stay and move in our population centres so that if Mujahideen attack them, any resulting civilian damage would be blamed on the Mujahideen. As much as we want to attack the enemy, we know that they want to use our people as human shields for their protection and therefore we abstain from confronting them in these areas.

Alemarah: Partly as a result of the recent operations and partly due to the targeted killings of government workers, some people in Kandahar are beginning to think that these shootings and bombings are random and indiscriminate. For this reason these people are very fearful of the present situation. What is your message to these people?

Haji Ahmad Saeed: I want to tell these people that if they are not government workers then they should be completely calm and relaxed. The operation in Kandahar are not random and spirit of the moment operations, instead each step is thoroughly planned and meticulously executed. The Mujahideen of Islamic Emirate first conduct thorough background research into their targets and when their relationship with the puppet government and their foreign paymasters is fully confirmed, do they proceed to punish these collaborators. Only once during my term has one of our Mujahids mistaken an innocent person (who fully resembled the intended target and was present in the same neighbourhood) for an intended target and killed him. On that occasion we contacted the family of the deceased and resolved the matter under the law of Shariah. Other than that no innocent person has been killed in these targeted assassinations. I want to console my fellow countrymen that the valiant Mujahideen would never steep to randomly killing their own countrymen. It is quite possible that the puppet government and the foreign invaders have put some moles in the city that terrify the populace by defaming the name of the pious Mujahideen. We have provided a contact number to the people of Kandahar to seek our help if ever confronted by these stooge government bandits.

Alemarah: How would you describe the Kandahar government?

Haji Ahmad Saeed: The government in Kandahar is barely capable of defending itself. We can see that the Kandahar government has no staff or functioning bureaucracy. Its only functioning organs are the police stations, which are run by the American invaders. On the other hand, the Mujahideen have set up various different committees which are always busy resolving the daily disputes of the local people in Kandahar.

Alemarah: To end, if you would like to say something or send a message, feel free.

Haji Ahmad Saeed: I, as a Mujahid and Muslim Afghan, would like to outline three issues which, if acted upon, will Inshallah bring success in this world and the one to follow.

My first message is to the puppet government workers. I say to them as a Muslim Afghan to leave this government. The government they work for is neither lawful nor Shar'ee (which applies the rule of Allah) but is a slave institution set up by the Americans to further their imperial goals. It does not befit a Muslim to work for the infidels in such an institution. They should hasten to leave this institution, and the Mujahideen will uphold all their rights. My second message is to the various different contractors responsible for working for the Americans in exchange for money. I tell them that even if your collaboration with the foreigners brings you wealth; it also increases the misery of Afghanistan under foreign occupation. For this reason you must give up on earning such unlawful wealth and give up your collaboration with the American invaders. My third message is to the various militias around Kandahar that are set up and run by the American invaders. Most of the commanders and soldiers in these militias are those same bandits that infested Kandahar before the inception of the Islamic Emirate. These bandits were once disarmed after the invasion but have once more been re-armed to serve as the shovels of Americans. I ask these men to consult their consciousness. How the Americans used them at the start of the invasion and then denounced them as bandits and miscreants. Now that they are again knee-deep in the mud, they invoke you to do their dirty deeds. Is it not enough for you to learn from your previous mistakes. You should not involve yourself once again in this dangerous war.

Clarification of the Spokesman of the Islamic Emirate of Afghanistan Regarding the Recent Assertions of the American General Petraeus

Friday, 18 March 2011 04:57

General David Petraeus, top commander of NATO forces in Afghanistan, has returned to Washington to find answer to questions and growing resentments of American people and Congress regarding the War of Afghanistan.

According to an opinion poll published recently in The Washington Post, a famous American daily, about two third of Americans have no confidence in the war of Afghanistan, considering it a fruitless mission. Similarly, hot debates are in full swing in the American Congress about the war expenditure in Afghanistan-- reaching to the tune of billions of dollars.

Congressmen like the American people want to know, do these fruitless efforts deserve the huge expenditure? General Petraeus, who is in charge of the war in Afghanistan, tried at the premises of the American Congress the other day during a hearing to give the Congressmen a spurious optimism. He said, though the Americans have been hearing about setbacks but there are some gains in the war of Afghanistan. These gains must be protected. General Petraeus emphasized on this point both during meeting with the American President Obama and American media, saying there were tangible advancements in the war. May be, he was pointing to operations by the American troops in some areas in south Afghanistan in the past recent months. We would like to say about the remarks of Petraeus that he is trying once again to give deceptive assurances to American people about the war of Afghanistan and quid pro quo, get some time and money for further prolongation of the war. However, if we look at the ground realities in the country, there is nothing to be called gains of the American troops. Not only they are losing the rural areas but also have become targets of effective attacks of Mujahideen in cities.

In the near past, the operation of Kandahar was one of the greatest ever carried out by the Americans. The Americans had had huge casualties being unprecedented in terms of loss. They are still smarting from their casualties. Though, the Americans destroyed whole villages and vineyards of people in some areas of Kandahar and afterward, built military bases there. Despite that, they were not able to wipe out the writ of Mujahideen. The Mujahideen are present in the areas and have blocked all ways and roads leading to the American bases. With the passage of every day, they lay further blockades to the invaders.

Another project of Petraeus was the training of the Afghan hireling forces to rely on themselves in terms of quality and quantity. This is also a failed effort. High ranking officials of the Kabul regime openly complain that no progress has been made in the way of boosting the hireling Afghan forces, and even it is not expected that the target could be achieved during the next five years, to put the forces in a position to defend themselves on their own.

The common Afghans have rejected the *Arbaki* program launched by General Petraeus. However, it is operational in a few areas, that too, with a very low capability. Contrarily, the Mujahideen of the Islamic Emirate enjoy a high morale and warfare spirit. The Mujahideen continued their military operations successfully in this winter, and did not let the enemy to take a breath of relief. Moreover, the martyrdom-seeking Mujahideen of the Islamic Emirate have carried out effective attacks against the enemy in various parts of the country, sending a jittery through the ranks of the enemy.

The Mujahideen of the Islamic Emirate continue their armed Jihad against the enemy, enjoying a high morale. They have the initiative of the battle in their hands, being always in the aggressive position while the enemy is retreating from or evacuating their bases in many areas in the country as the have withdrawn from Pech Valley. Thus they flee the areas.

I would like to point out my opinion about the assertions of Petraeus. Let's sum up the results and the losses. The Americans had launched one of their greatest operations in Gerisk district of Helmand province. It continued for one month. According to a survey conducted by Mujahideen, the Americans lost 54 tanks and armed vehicles as a result of road side bombs and attacks. But after the end of the operation, the situation did not change. The status quo is the same as before. The Americans went back to their bases after suffering huge casualties and losses. The Mujahideen are in control of the area. The same is the fate of other operations conducted by the forces of General Petraeus. It is very surprising that despite that, the general tauts these failures as military gains.

Like the American people, two-third of whom believe this war is fruitless war, the Islamic Emirate too believes that the current war of Afghanistan will bring in nothing for the Americans except defeat. We have faith in our God and believe, this legitimate Jihad of the Afghan people will ultimately result in the complete rout of the invaders. The surge and prolongation of the war will only add to financial loss and military casualties of America. Nothing more than that, if God willing.

Statement of the Islamic Emirate Regarding the Foreign Intervention and Civilian Casualties in Libya

20 March 2011

According to media reports, American and French forces fired more than 100 missiles last night, hitting targets in various places of Libya. They also bombed some areas and threatened to launch more missile and aerial attacks. Reports from areas hit by the invasion, say, many civilians have embraced martyrdom in the attacks. Similarly, public installations have been destroyed.

The Islamic Emirate of Afghanistan strongly condemn this politically-motivated and uncalled-for intervention and adventure of the Western countries in the internal conflict of the people of Libya under the auspices of the United Nations. The consequences of such intervention certainly harm this Islamic country and the Islamic Ummah. In the eye of the Islamic Emirate, it is a matter of pity that the situation in Libya evolved to the extent that paved the way for the anti-Islamic forces to intervene. We believe, the Western colonialists do not want a solution in this country on the basis of aspirations of the people but rather have plans to weaken this Islamic country in a war of attritions and then occupy its oil reserves through a direct invasions.

The Islamic Emirate of Afghanistan calls on the people of Libya through this statement to take the initiatives of the situation in their own hands and do not let others to play with their destiny. As a Muslim people, they should know their obligation and fulfill their Islamic and national duty, in order that the internal and external enemies will not find chance to make them scapegoat for their warmongering policy. Similarly, we remind the Islamic Ummah and the rulers of the Islamic world not to remain neutral in this conflict facing the Libyan people but rather should play their role in this issue being in line with the interests of Islam and the believing people of Libya to enable this nation not only to wriggle free from the current crisis but also save itself from the tentacles of the foreign colonialism in the long-term.

The Islamic Emirate of Afghanistan.

Remarks of the Spokesman of the Islamic Emirate of Afghanistan About the Baseless Claims of Abdul Khaliq Malekzai

21 March 2011

A person who calls himself Abdul Khaliq Malekzai has had audio interview with some media outlets, claiming that he was envoy of Taliban and wanted to reach reconciliation with the so-called Kabul Administration. He said that he was already engaged in talks (with the stooge Administration). He also claimed that there are 12,000 Taliban who agree with his program and talks are continuing with 6,000 more Taliban to persuade them to join the reconciliation process with the State.

The Islamic Emirate of Afghanistan, like before, strongly refutes these baseless and fatuous claims and considers them as failed endeavors on the part of the enemy in a series of its psychological warfare. No member of the Islamic Emirate, whether a high-ranking or low-ranking Mujahid, has ever contacted any side for talks directly or indirectly.

It is no more than mere propaganda and lies that some faceless persons appear in media time and again and claim, they are envoys of the Islamic Emirate appointed for (participation) in the talks. In fact, they are hirelings of the enemy and their stooges.

As the enemy is facing defeats in every part of the country and has lost its warfare capability in face of the Mujahideen, so it is trying to confuse the public opinion and distract their attention—an effort by invaders to cover up their defeat and weakness.

The Islamic Emirate of Afghanistan has a clear stance as regards the negotiation. The Islamic Emirate is not ready to have talks in condition of presence of the invaders. This should be made clear that talks in condition of the occupation gives legitimacy to the present Puppet Administration and to the occupation itself. This is a disloyalty to and betrayal with the cause and aspirations of the Mujahid people of Afghanistan.

COMMENTS

Americans Give in, in Face of Mujahid-raising Land of Kunar

3 March 2011

Pentagon has announced that American forces would retreat from Pech Valley and the surrounding areas in near future. Said Pentagon's spokesman: "Our troops can't monitor all valleys of Kunar province because they are so many." It is worth mentioning, Pech Valley is a strategic location, connecting Noristan province and other south-eastern provinces with the east of the country. The American soldiers have already pulled out of Korangal and Gamdesh districts. The invading Americans are planning to withdraw their troops from one of the strategic locations and submit to the ascendancy of Mujahideen in a time that last week, as a result of American aerial bombardment in Ghazi Abad district of Kunar province, 80 civilians were martyred besides occurrence of other huge material losses. According to reports, the recent atrocities committed by the Americans have provoked anger and resentments among the local people, reaching its peak and are not ready to tolerate presence of American bases on their soil any more. It seems that the American invaders have come around to know that they are not able to stay further in the area as people are bent on taking revenge.

To mitigate the anger and indignations of the residents and for fear that they might be besieged or captured alive, the invaders have decided to evacuate the grand military base of Pech Valley of Kunar province. Still more, some western sources say, the Obama Administration is facing enormous financial problems in Afghanistan. Pentagon has repeatedly urged Obama to approve another budgetary package of war. The White House submitted a financial package of \$110 billion dollars to Congress last week, which is yet to be approved by the Congress. The American Senate with Republicans being in majority, contends that Americans' views polls are against the war of Afghanistan and are not willing to spend even one dollar of tax money on this worthless war. So in view of the financial problems of the Obama Administration and the disenchantment of the American people with the Afghan war, the American Defense Minister told Kabul Administration frankly that they should seek aids from other countries for the training of police and army. According to him, America can't afford to bear such expenditure alone.

The Islamic Emirate of Afghanistan believes, the withdrawal of the American invading troops from their barracks and military bases in Pech Valley of Kunar province, clearly indicates that not only Obama Administration is grappling with financial challenges, but it has realized that all localities, valleys, mountains and flat lands of Afghanistan are no more a place for their troops deployment; not safe and risk free for them. The Afghans people have surely determined to throw the gauntlet in the coming spring. So, the Americans are retreating from areas where they think, they would be either besieged or face high soul and material losses.

West Admits, Afghanistan has no Military Solution

09 March 2011

West, the force behind the decade-long occupation of Afghanistan and civilian casualties; the cause of sufferings and tragedies, at last, has come around to accept that Afghanistan has no military solution. This is in a time that more than 150,000 foreign troops are stationing in Afghanistan, maintaining their occupation of national independence and sovereignty of the Afghans. Michel Steiner, Chief of UN Contact Group, revealed this in a meeting of the Contact Group in Jedda, Saudi Arabia last week. He was participating in the meeting on invitation of the Islamic Conference. He said, the issue and problems of Afghanistan could not be solved through the war and will not make it possible for the Afghans to reach the blessing of security and prosperity. He added, political means of solution should be sought to end the war. Similarly, the Islamic conference declared at the end of the meeting that the decade-long war had tremendously added to the sufferings and problems of the Afghans. Therefore, it was necessary to put an end to the military approach and seek means of political solution.

High ranking representatives of about 40 regional countries including those from the West participated in the recent meeting of the Contact Group. They have expressed their disenchantment with the current war of Afghanistan in a time that a few days ago, Germany and Britain opined that the war of Afghanistan was worthless. They showed their support for talks with the Islamic Emirate.

Last Week, some media outlets reported that US President Obama had approved a resolution which reaffirms an earlier withdrawal of their forces from Afghanistan, citing the annual war expenditure of \$100 billion as a cause for the step. This is because the tremendous outlay weighs down heavily on the shoulders of the American people and they are not able to bear it any more. America and her Allies' resentments as regards the war of Afghanistan and emphasis on political solutions come at a time that the invaders used various poisonous, heavy and banned weapons against people of our country during the past decade. They continued their dreadful trend of torturing, fettering and detaining (innocent people) during the period and suppressed the throat of religious and national values of the Afghans.

The essential question now arises, while the Contact Group, the Islamic Conference including the West consider the war of Afghanistan as a worthless and fruitless war, then why they hesitate to single out those who started the war of Afghanistan, killed, handicapped and displaced hundreds of thousands of Afghans as the culprits and disclose the identity of those who are responsible. Still more, why they have been continuing the unjustified and deadly war for one decade. Those who call this war worthless should also simultaneously call for trial of the callous planners of the war and that they should pay proper compensations to the Afghans because, in the first place, they were those who began the war on mere pretexts and have been prolonging it till this very day.

Observers believe, the American and Western rulers who cover up their crimes in Afghanistan and seek an alternative way of solution do not seem to have any remorse about their belligerent policies, but, contrarily, their people and economic foundation do not allow them to keep up the current pace of war expenditure in Afghanistan relentlessly, or continue losing their countrymen.

We think, if the Contact Group, the Islamic Conference and other circles really want to bring the current war in Afghanistan to an end, then the solution is very clear and feasible-- they should withdraw 150, 000 foreign forces from Afghanistan unconditionally and pave the way for establishment of an Islamic System on the basis of the Islamic and national aspirations of the Afghans.

Combating Colonialism, Between Yesterday And Today

10 March 2011 By Abu Said Rashed

In the name of Allah, the Most Gracious and the Most Merciful.

Praise be to Allah, Lord of Creation, Who gave strength to His soldiers, supported His servants and defeated the Confederates Alone, prayers and blessings be upon his Messenger Muhammad, the Laughing Warrior, and upon his Household and Companions, and those who follow his example until the Day of Judgment.

Thereafter:

31 years ago, on the 6 Jadi 1385 Hejrah-e Shamsi, as it is known among the Afghans, corresponding to 8 Safar 1400 AH, Soviet Communist forces invaded the beloved land of Afghanistan, and thousands of soldiers came from high and low in the dark of night, and the killing, desolation and destruction began. That night of unjust aggression, the night of tyranny and oppression lasted ten years. Through the grace of Allah, His aid and support, however, and through the sacrifices, determination and faith of the people and one and a half million martyrs, and through the support of the Ummah, the Red forces were forced to leave Afghanistan and indeed liberated from the grip of their aggression, tyranny and assault (on) both Islamic and non-Islamic states which were under the weight of Communism for years. The Afghans with the help of their Lord destroyed that Empire; the Red empire and great Communist state.

Allah, through the blessing of the Jihad and sacrifices of the Afghans, erased the Soviet Union from the face of the earth and eliminated them from the world; the Warsaw pact.

"Such were the populations We destroyed when they committed iniquities; but We fixed an appointed time for their destruction." (al-Kahf 59).

But we say, (unfortunately) that Afghanistan with its enormous sacrifices – one and a half million martyrs, millions of wounded, and bereaved mothers and widows – is still being burned by the fire of unjust external aggression, incoming tyranny, dark and gloomy night and a black and gloomy situation.

The injustice and aggression began ten years ago on 20 Rajab 1422 AH, corresponding to 15 Mizan 1407 Hejrah-e Shamsi, with the aggression of the NATO alliance under the leadership of America. More than 150,000 soldiers came aided by all the countries of the world, or almost all of them, and attacked the land of the Afghans, a land of which has been appointed: *"It is the quiver (Kanana) of Allah, if he is angry with a people he fires from it at them"*.

Thousands of Afghans have been killed since that night of aggression until today. Thousands live under continuous torture and punishment in the prisons of the Occupation inside and outside the country. Other men and women have been impacted by weapons of mass destruction filled with gunpowder and gases dangerous to the public as well as beasts and animals and the barbarism remains.

We are the children of conquering warriors and we do not pay heed to these calamities if Allah is content and do not mind any of our struggles if they are for Allah and the liberation of the homeland. We adhere to the eternal and ancient covenant:

"Allah hath purchased of the Believers their persons and their goods; for theirs (in return) is the Garden (of Paradise): they fight in His Cause, and slay and are slain: a promise binding on Him in Truth, through the Law, the Gospel and the Qur'an: and who is more faithful to his covenant than Allah? Then rejoice in the bargain which ye have concluded: that is the achievement supreme." (al-Tauba: 111)

To us, there is no difference between the Russians and the Americans. Each of them has occupied our country and shed our blood, destroyed our civilization, corrupted our culture and our Religion. The first, turned away and fled and the second is in the dark, trying to reach their vile goal. They will not win, Allah Almighty willing.

There is no difference: if yesterday, Russia occupied Afghanistan with its soldiers under the name of the Warsaw Pact, today America occupies it in the name of the NATO alliance. If yesterday, Russia described the battalions of liberation and Jihad and all the Mujahideen as evil, America – stamped with murder and destruction – likewise describes its unjust and evil occupation as fighting terrorism, its intervention in others countries' affairs as building civilization and restoring woman's rights, its obliteration of the economy as opium eradication and the sabotage of minds and ideas as education and culture.

Just as Russia yesterday tried to devour the freedom of the Afghans and hitch their government to the Kremlin palace, today America wants to swallow the freedom of the Afghans and tie their fate and their future in the hands of the White House and the notables of London and Brussels. The Royal palace – Kabul – above it used to fly a Soviet flag imputed to belong to Afghanistan. Likewise, today an American flag waves above it and is attributed to the Afghans. Just as Russia yesterday did not consider the presence of its forces and its occupation as injustice, tyranny and aggression; America and its allies today term the presence of 150,000 soldiers as friendship and their barbaric deeds as resistance and war conducted in the interest of the country.

Yesterday, men in Afghan uniforms stood in rank with Russia were given the appellations of loyal and honest. Likewise, the indecent, treacherous, vile and wicked gang obscure from the eyes of all the wicked deeds of the occupation soldiers – random bombing; complete destruction; killing of civilians; changing and destroying culture and education; spreading prostitution; plunder; sowing fear; violating traditional Afghan and Islamic sanctities and painting those crimes as deeds done to benefit the country.

But Russia and the Warsaw pact were not able, yesterday, to fight the Afghan people and their brothers and, praise be to Allah for this, (they) did not succeed in their goals, the most important of which were: making the faithful Afghan people true communists and making Afghanistan a country belonging to the great Soviet Union. The Russians faced an historical and abominable defeat while resorting to all kinds of terrorist acts, destruction and punishment. Those forces that had rushed to swallow up Afghanistan went back; crawled away, folded up and indeed fled. Today, through the aid and grace of Allah, and the determination of the people, and the cooperation of their brothers, America has been unable to vie with this proud people. Nine years after American and NATO forces entered Afghanistan none of the goals which they wanted to achieve are achieved. Indeed, the situation becomes worse day after day. Their goals were achieving security, destroying the forces of the Islamic Emirate, establishing an Afghan army fashioned in the American and Crusader mold and capable of controlling matters and fighting the Mujahideen in the country, holding free and fair democratic elections and then withdrawing. This was to be accomplished within a year at most.

But years have passed with none of this having been achieved. Rather, unrest has increased, and the forces of the Islamic Emirate grow stronger day by day while NATO soldiers are falling dead and injured. These circumstances have placed the governments of those countries participating in those forces in a dilemma before their peoples. Demands for the withdrawal of those forces increase day by day. In Canada, Germany, the United States of America itself and Great Britain public cries are raised inside and outside parliaments demanding an end to the war and the withdrawal of forces from there, because it has become futile, confusing and consuming minds and driving some insane. More than one fact and confession confirms that Afghanistan is the critical predicament into which the NATO alliance and the American people themselves, who are unable to do anything with NATO or without it, have fallen.

It has been revealed to all that America is standing on the brink of an abyss and will fall to ruin; destruction and death; its strength shaken; its plan weak and confused; its pride and arrogance collapsed and broken.

"But your Lord is Most Forgiving, full of Mercy. If He were to call them (at once) to account for what they have earned, then surely He would have hastened their Punishment: but they have their appointed time, beyond which they will find no refuge." (al-Kahf: 58). All praise is due to Allah.

When we recall the 6th of Jaddi, its calamity, terror, its trials, misfortune, and when we condemn those who made this calamitous day and send our greetings and blessings to those who sacrificed for the sake of saving the country from the claws of the red lobster, we see that the 15th of Mizan is the calamitous follow-up in the unfortunate chain of 6th of Jaddi. We wish that America and the NATO alliance are resisted to the same extent as Russia and the Warsaw Pact, in order to save the world from its evil and the evil of those in it. This is up to Allah Almighty.

So death, death to the transgressors of the 6th of Jaddi, and 15th of Mizan. Evil befall them and those who follow their model. Glory be to Allah and to his Messenger and to the patient Mujahideen believers. Allah is Most High and the Greatest!

Translated From The Islamic Emirate Of Afghanistan: Al-Somood Magazine Issue #56

The Afghans Can't Tolerate the Occupation even for a Single Day, Let Alone Tolerating the Permanent

16 March 2011

Karzai, the Head of the Kabul Administration, once again committed a clear affront to the proud Afghan characteristic and to his Afghan conscience during a speech at a ceremony held on the occasion of the World's Women Day on March 8. He said that he would convene a Loya Jirgah (a high council) to decide about the establishment and endorsement of American permanent bases. No doubt, majority of the Afghans are very sensitive about the presence of the Americans and other foreigners and loathe the idea. Even now the so-called national army which is trained with American expenditure, nurtures the desire to make short work of foreign soldiers wherever they find an opportunity to do so. This is in addition to the resentments and hatred against the invaders prevalent among Mujahideen and the common populace. It is not a propaganda campaign (that we say this) but it is a prevailing trend on ground, accumulating strength day by day and many acted on it practically. Every week, an event comes up that a soldier of the national army has turned barrel of his gun against the American and foreign soldiers. As result, some of them have been killed sporadically here or there.

Viewing the fact that a wide-spread animosity against the foreign presence and invasion is constantly spiraling up among the ranks of the military units and contingents of the stooge regime, waiting the time to gun them down, then how it is possible that the proud tradition of the common Afghans and the religious obligation and the Afghan characteristics of Mujahideen will allow them to overlook the overall American presence in the country? It seems the issue of American permanent bases is a process, now put on the shoulder of Karzai to tackle, ostensibly through bringing it to the floor of Loya Jirgah. Thus they try to give a clout of legitimacy to their current abhorrent invasion of Afghanistan. However, this is a project being neither acceptable to the Afghans nor to the people of America and the West, nor to the countries of the region.

During the past decade, the Afghans have passed through a phase during which they suffered a genocide of 150,000 and torture of one million people. All these were perpetrated by the Americans. Similarly, the people of America and of the West witnessed the lies and the two-faced conduct of their rulers in addition to the coffins of thousands of their soldiers, who lost their lives in Afghanistan. They are now bogged down in a vortex of a quagmire without any passage to wriggle free. They have no way out except the option to escape. The regional countries are now well aware of the dangerous motives of America and their other ploys. Moreover, the Afghans saw all phony Loya Jirgah and high councils of Karzai which were formed under the bidding of the Americans during the past decade. All of them were constituted for the protection of the American interests but never solved any issue to benefit the Afghans. Every one knows, that a Jirgah or a council with members having been selected by Karzai Administration, will necessarily approve the decision taken under the bidding and instructions of America.

Karzai and his masters should know that gone is the days when fake Jirgahs and mediation were expectedly working. The Mujahid people will continue their resistance against the foreign presence in the country even though you accord them legitimacy through the said fake Jirgah, say, for a hundred times. The Jihad will continue as it had been continuing against the Britons, the Russians; as it is currently continuing against the Americans and their allies. The sacred Jihad and resistance against you have now evolved into a country-wide uprising. Every pious Afghan considers it his religious and national obligation to beat you and teach the invading troops a lesson that they will not forget so that they will not covet any other Islamic land to invade.

The Invaders Must Concede, 1389 was a Year of Mujahideen's Advancement.

23 March 2011

1389 (the solar Hijri year) just ended. 1390 has outspread its wings. It is a matter of pleasure that during the past year, Mujahideen taught a good lesson to the invaders at all fronts. Predictably, the invaders will not be able to dare come out of their military bases openly in the new year, or patrol and walk among people. Last year, the Mujahideen were able to establish strong centers of Jihad and uprising against the invaders in the north of the country. This was in addition to the resistance already going on in the south.

The negative public opinion tendency against the Islamic Emirate which was a mere brainchild of the puppets of America in the last decade, began unraveling. These devilish ploys faced frustration and disappointment. Instead, people showed cooperation and coordination with the Islamic Emirate of Afghanistan. The route in the north which is viewed as an alternate way for transportation of military hardware of the invaders from Tajikistan, Kyrgyzstan to Afghanistan via Russia, became unsafe, full of dangers and threats. All predictions and assessments of the invaders proved futile and in vain in this regard. Similarly, the Mujahideen compelled the invading American forces to retreat from some important strategic areas of the country. They evacuated their sprawling military bases and concentrated in central barracks of provinces.

On the basis of the reports and figures collected from all parts of the country, the Mujahideen destroyed various tanks, aircrafts, helicopters and military

vehicles during the last year, the numbers of crowd who were manning them and resultantly either killed or wounded, reach 10,000 army personnel. The soul and material losses of Mujahideen are comparatively less than that manifold, thanks to the help of Allah (SwT). This is because the Mujahideen are now well familiar with the tactics of the aerial bombardments of the enemy. So the invaders were not able to achieve their targets through bombardment. Last year, Mujahideen's offensives were most effective which, consequently, forced NATO and America to fix a date of withdrawal from Afghanistan in a meeting in Lisbon. As a result, they unveiled 2014 as a date for pull-out of the invading forces. Similarly, Mujahideen proved that people supported them by thwarting the Kabul Administration parliamentary election of the solar year 1389. (2010). The Mujahid people of Afghanistan observed a full boycott on the polling day. Only polling centers in military units and other sensitive places in provinces were open for voting. This constituted only 5% of the total polling stations. Even there, the drama of parliamentary election was tremendously exposed. They stuffed the boxes with fake votes which resulted in the establishment of special court by the Kabul Administration to investigate the fraudulence.

1389 was a year of vast diabolical conspiracies by the invaders but with the help of the Almighty Allah, the Islamic Emirate came out of these machinations with flying colors. The formation of the so-called peace council comprising of some hackneyed and money-mongering figures was another play launched (by the enemy) to initiate dialogue with Mujahideen and establish contacts. But the Islamic Emirate foiled this plot thanks to its unambiguous and national stance based on the aspirations of the people. The Islamic Emirate proved to the Afghan people and the world that the slogans under the name of reconciliation were misleading and spurious. There are contradictions in their words and acts. In the field of media, the Islamic Emirate had great achievements which are even acknowledged by the enemy. Last but not least, the invaders and their puppets must admit that the achievements of the Islamic Emirate in political, military and social fronts and the popular support enjoyed by the Islamic Emirate in 1389, prove that last year was a year of advancement for Mujahideen. Contrarily, it contained days of losses, setbacks and retreats for the invaders.

We hope, the Mujahideen will enhance their presence and write in the beloved country Afghanistan manifold, in the current solar year 1390 and beat the invaders and their puppets so much that, if God willing, they will not have the capability to either continue the war or confront the people of Afghanistan.

Unquestionably Hands of Americans Rulers Behind the Crime of the Holy Quran Burning

31 March 2011

Some international media outlets reported on the evening of Friday last that Terry Jones, pastor at a church in Gainesville, Florida set fire to a copy of the Holy Quran on Tuesday after a fake trial. According to this Satan, the Holy Quran teaches murder and terrorism in the world. This devilish American pastor had been threatening for the last six months persistently that he would burn hundreds of copies of the Holy Quran on September 11.

The American media outlets like their rulers stayed completely silent as regards this inhumane and wicked action. They neither published commentaries about this evil act nor showed any reaction thereabout. Only a limited number of Muslims in New York condemned the crime of the pastor during a demonstration. They said, the event of burning a copy of the Holy Quran indicates that the Obama Administration is indifferent to the cause of protection of the religious beliefs and values of the Muslims. Contrarily, the Administration acquiesces in allowing him to desecrate Islamic rituals and the sacrosanct.

Though the American rulers say, the burning of the Holy Quran falls under the category of freedom of speech but the question arises if a Muslim reacts to the bestial step of Terry Jones in a self-same manner, then would the American rulers and media tolerate it under the rules of the freedom of speech and would they remain silent? Or rather that the Americans including the rulers, politicians, religious followers and media of the West will simultaneously, run a mock and refer the case to the Security Council and the United Nations?

Terry Jones, pastor of Gainesville church in Florida, USA, has burnt a copy of the Holy Quran in a time that the Americans ironically consider it as a cause of 9/11 and have already invaded Afghanistan and Iraq under the said pretext. They shed blood of hundreds of thousands of innocent Muslims and even have recently turned to killing and oppressing the Libyans Muslims. So we can say, the hostility of the pastor and his anti-Islamic crime is not limited to his person but is a comprehensive anti-Islamic plan being implemented with the volition and consent of the White House. Hundreds of times, we have seen abhorrent instances of blasphemy at the hands of the Americans soldiers in Guantanamo, Abu Gharib and Bagram prisons, desecrating the Holy Quran and other Islamic tenets. While we strongly condemn the crime of the burning of the Holy Quran by the American pastor Terry Jones, meanwhile, we say there are hands and help of the American rulers behind this evil and despicable deed of the pastor. He had been threatening for months to carry out this sinful action and the American rulers were fully aware of his intention.

To end, we call on the Islamic Ummah, not to remain indifferent in face of this contemptible action of the enemies of Islam. Shake up and put pressure on rulers of your countries to come out of the cocoon of hesitation and vacillation and raise the issue of the Holy Quran burning at world level.

American Genocide continues in Helmand: 52 civilians Martyred in the past week. Locals from Sangin district, which is located 70 km south of the provincial capital Lashkargah city say that since the day the American terrorists took control of the district from British invaders, their genocidal operation have caused the civilians many problems including the Martyrdom of 52 civilians in the past week alone and these barbaric operations have forced the people to completely abandon almost all of the villages. A local by the name the name of Maulavi Hidayatullah says that nearly all the villages in the district have been abandoned by civilians recently and some people, who cannot afford to migrate, are stuck inside their homes and when they do come out, they are targeted by the criminal US forces and are martyred. The deserted villages are as follows: Khanano, Pirzo, Bakhshak, Mullah Azizullah, Hazaragano, Malik Abdullah Aka, Kala Miyano, Chinari, Za'firani, Garo, Chardah, Khwaja Gadia, Ahmadza, Gumbati and Sarkella. These are those villages which have been totally emptied and some people who are still there have been trapped in their homes for months. The Maulavi adds that the people who he knows that have been martyred by the terrorist Americans are as follows: From our village Haji Mullah Shah Wali, our elder Mustahib Lala, Tribal elder Haji Muhammad Anwar, Haji Fazlo's elder son, Mullah Shahzad Faqir's brother and cousin. From Kala Miyano village Haji Saleh Muhammad's 4 sons, Haji Khair Muhammad's son and another one of their guests who went outside the house and was instantly martyred by the barbaric Americans. Similarly in the past few days the son of Sayed Rassol Aka, Adams cousin, Haji Mirza's cousin and two other elders from our village were also martyred. The Maulavi, who is a respected elder in his village, adds that the inhumane invaders had also martyred 20 innocent people in Miyanzo and Joshali villages in a single day a month earlier. It is also worth mentioning that the invading forces have also taken by force the houses of civilians and turned them into their outposts and have also made illegal roads in the fields and orchards of the ordinary people. O ALLAH, MAKE THEM AND THEIR WEAPONRY A BOOTY FOR THE MUJAHIDEEN
YOU ARE OUR SUPPORT AND YOU ARE OUR ONLY VICTOR; BY YOUR ORDER WE ATTACK;
BY YOUR ORDER WE RETREAT AND BY YOUR ORDER WE FIGHT
O ALLAH, THE SKY IS YOURS; THE EARTH IS YOURS; THE SEA IS YOURS,
SO WHATEVER FORCES THEY HAVE IN THE SKY, DROP THEM.
DESTROY ALL THEIR FORCES IN EARTH AND SINK ALL THEIR FORCES IN SEA
O ALLAH, DEAL WITH THEM FOR VERILY THEY CAN NEVER DISABLE YOU
O ALLAH, RETALIATE UPON THEM, AFFLICT THEM LIKE YOU DID TO PHARAOH AND HIS NATION
O ALLAH DEFEAT THEM, DESTROY THEM O THE ALL-STRONG, THE ALL-MIGHTY
ALLAHU AKBAR
